

Refill. Reduce. Refresh.

Acorn Engineering Company's Bottle Filler attaches to Acorn water coolers to provide chilled water in any water bottle.

Features and Benefits:

- Vandal-resistant all-metal construction.
- 1 gpm quick fill flow rate allows users to fill a water bottle quickly.
- Optional water filter works on the cooler and bottle filler.
- Minimal electronic components.
- Compatible with Acorn's A111 and A112 water coolers and enhanced design A171 and A172 water coolers.

Enhanced Design Water Coolers Feature:

- **Patent Pending Auto Stop:** Shuts off water when the strainer cap is removed.
- **Universal Bi-Level:** Install the high fountain on either side.
- **Easy to Install:** Three piece drain assembly.

Maintenance Advantage™

Water Cooler by Acorn Engineering Company

Less is More.

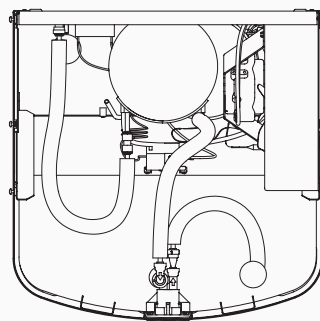

Easy Maintenance + Fewer Parts = MORE SAVINGS!

- **Less Time:** Routine maintenance takes 2 minutes.
- **Less Maintenance:** Access water shut off, cartridge, and filter from the front without removing the shroud!
- **Less Expense:** Fewer parts to repair and less expensive parts.
- **Less Work:** Universal rough-in will match existing footprints for easy retrofit.
- **Water Shut Off:** Features a Patent Pending Auto Stop that shuts off the water when the strainer cap is removed.
- **Premium Features at a Value Price.**

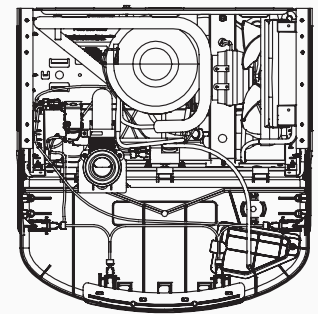

Designed with Ease of Maintenance in Mind!
