

## AquaSeal Press Sleeves

The new AquaPress stainless sleeve and press system is approved for use with ASTM F876/877 sized pipe and installation of residential and commercial potable hot and cold water lines as well as sealed hydronic heating systems.

Provides a clean, consistent, leak free, tamperproof fitting that is corrosion resistant and completely protects the pex end and insert fitting.

Press tools have articulated handles for use in tight areas.

Product Part #	Description	List Price Each
24312	1/2" Press Sleeve	.45
