

Grundfos has Gone and Done It!

Announcing...
PRESS CONNECTION
 Dielectric Isolation Valves

That's right! Grundfos has expanded their dielectric isolation valve offering with a long-requested addition: reliable, code-compliant press connect options for domestic water and hydronic heating applications!

Low-lead certified to NSF372 for potable water and hydronic use.

Now Available:

The new kits, with part numbers 93521631, 93521634, 93521635, and 93521636, are available now and are low-lead certified to NSF372 for potable water and hydronic use. These join our existing sweat and NPT models 96806129 thru 96806138, providing flexibility across installation types.

The kits have everything you need, including:

- Two ball valves with press fittings
- Two dielectric sleeves
- Two flange plates
- Two flat gaskets, four nuts, and four bolts

<u>Part Number</u>	<u>Description</u>
93521631	Flange Kit GF15/26 x 3/4" Press Vlv DiE
93521634	Flange Kit GF15/26 x 1" Press Vlv DiE
93521635	Flange Kit GF15/26 x 1-1/4" Press Vlv DiE
93521636	Flange Kit GF15/26 x 1-1/2" Press Vlv DiE
